

## Senate Finance and Public Administration Committee Supplementary Budget Estimates 2009-10

Wednesday, 28 October 2009

I have just today been advised that I unintentionally gave an incorrect answer to a question during DPS's appearance at the Senate Estimates hearing of the Finance and Public Administration Legislation Committee on October 19.

In responding to Senator Bernardi's question about the value of a contract with a South Australian company, I stated the figure was \$3.5 million including GST. In fact the correct figure is precisely \$3,471,400 **excluding** GST.
