

**Senate Finance and Public Administration Standing Committee**  
**ANSWERS TO QUESTIONS ON NOTICE**  
**SUPPLEMENTARY ESTIMATES HEARINGS**

**PRIME MINISTER AND CABINET PORTFOLIO**

**Department/Agency: Department of Regional Australia, Regional Development and Local Government**

**Outcome: 1**

**Topic: RLCIP \$550 million**

**Senator: BERNARDI**

**Question reference number: 20c**

**Type of question: Hansard F&PA page 54, Tuesday 19 October 2010**

**Date set by the committee for the return of answer: 3 December 2010**

**Ms Foster**—Yes. As I think one of the other officers said, in this series of programs there are 5,000 projects.

**Senator BERNARDI**—Yes. But are there hundreds of them that have been renegotiated?

**Ms Foster**—Senator, I would have to take that on notice.....

**Senator BERNARDI**—If you can tell me which ones have been renegotiated, I would be interested in that too. How does the department assess the value or the merit of the infrastructure projects that are put forward to it?

**Number of pages: 41**

**Answer:**

In assessing projects in all RLCIP Programs, the Department considered the nature of the project, the level of community support for the project, Council's ability to complete the project on time and within budget, and whether the project would be sustainable. Where the Department believed there were risks with the viability of the proponent or project that required further consideration, an Independent Viability Assessment (IVA) was undertaken by a qualified external consultant engaged by the Department. The findings of the IVA are considered in the project analysis.

Under the RLCIP-SP \$550 million program, 137 projects were originally funded with 12 requiring variation to their Funding Agreement.

Under the RLCIP \$250 million program, 3,220 projects were funded of which 682 required a variation to the funding agreement.

Under the RLCIP \$100 million program, 1,438 projects were funded of which 19 required a variation to the funding agreement.

The reasons for the variations to the funding agreements include:

- Additional funding from other sources for the same project
- Natural Disasters (Fire/Flood)
- Contractors unavailable to complete funded works
- Permit and planning issues
- Environmental impact
- Further Community Consultation

### RLCIP Projects that had funding agreement variations

| Program                          | State | Council Name                    | Project Name  | Funding         |
|----------------------------------|-------|---------------------------------|---|-----------------|
| RLCIP-SP Round One \$550 million | NSW   | Byron Shire Council             | Byron Sports and Cultural Centre                          | \$8,000,000     |
