Date set by the committee for the return of answer: 2 December 2011

Senator RONALDSON: On 4 October two of the 15 servers failed due to a service schedule change. Are you aware that footage was lost and security cameras were unusable?

Ms Graham: I was aware that we did have an issue as part of the patch process, where we did lose some footage, but I cannot recall the exact details. I would not be able to comment any further. If you would like me to get some information, I can do that on notice.

Answer

1 On 4 October, two servers were restarted. During the restart (less than two minutes), some cameras were out of service. Recording is not available during the restart sequence.
