

SENATE STANDING COMMITTEE ON LEGAL AND CONSTITUTIONAL AFFAIRS
ATTORNEY-GENERAL'S DEPARTMENT

Question No. 1

Senator Ludwig asked the following question at the hearing on 13 February 2007:

With regard to all grants allocated by the department/agency from 1 January 2002, could a table detailing the following information be provided:

- a) The name of the grant program
- b) The name of the grant recipient
- c) The ABN of the grant recipient (where available)
- d) The value of the grant awarded
- e) The date the grant was awarded
- f) The state of the grant recipient
- g) The postcode of the grant recipient

The answer to the honourable senator's question is as follows:

Attorney-General's Department

Commonwealth Community Legal Services Program

The answer to the honourable senator's question, which is understood to include reference to funding agreements that are less than \$100,000, is detailed in Attachment A. Funding agreement amounts are exclusive of GST.

The Australian Government currently provides funding through the Community Legal Services Program to 128 community legal services located across Australia.

With the exception of one organisation, the grant recipients included in the attached table were awarded funding prior to 2002. Funding under the Program is provided on a recurrent basis subject to compliance with the terms and conditions of a Service Agreement and the ongoing appropriation of funding by Parliament.

In 2003-04, the Hervey Bay Neighbourhood Centre, operating as the Taylor Street Community Legal Centre, was awarded funding following a competitive tender process.

Indigenous Law and Justice

The answer to the honourable senator's question is detailed in Attachment B. Funding amounts are exclusive of GST.

The Attorney-General's Department administers program funding via grants and contracts across four programs – Legal Aid for Indigenous Australians Program, Law and Justice Advocacy Program, Family Violence Prevention Legal Services Program and Prevention, Diversion, Rehabilitation and Restorative Justice Program. The Attorney-General's Department has had responsibility for these four programs from the commencement of the 2004-05 year. Prior to this time the programs were administered by Aboriginal and Torres Strait Islander Services (ATSIS) in 2003-04 and by the Aboriginal and Torres Strait Islander Commission (ATSIC) for the periods 2001-02 and 2002-03. Accordingly, the

information provided by the Department for the years prior to 2004-05 is reliant on grant information systems managed by the Department of Families, Community Services and Indigenous Affairs.

Information provided for the 2001-02 year is for the full financial year rather than from 1 January 2002 onwards. ABN information has not been provided due to the large number of grants involved and time constraints in responding.

Emergency Management Australia

The answer to the honourable senator's question is detailed in Attachment C.

Australian Organisations Program

The answer to the honourable senator's question is detailed in Attachment D. Grant amounts are exclusive of GST except where indicated otherwise. Where date of approval is not available, the date the amount was posted into the Department's account system (Post Date) has been used.

National Community Crime Prevention Program (NCCP)

A full list of grants is provided for NCCP in Attachment E

Proceeds of Crime

A full list of grants is provided for Proceeds of Crime in Attachment F

Family Relationships Services

A full list of grants at Attachment G sets out payments from 2000-2001 made under the Family Relationship Services Program under funding agreements and grants for any amount paid under \$100,000. Where available, the State for recipients has been included but postcodes for each recipient are not held with information about payments made and a very significant level of resources would need to be diverted to the task of identifying these for each recipient, given the number of grants and funding agreement payments. It should be noted that the recipient of funding in many cases is the central office of an organisation and the postcode would not necessarily show the location of the allocation of the payment under the funding agreement or grant.

Categories marked with an asterisk (*) represent payments made through the Department of Families, Community Services and Indigenous Affairs, though funded by the Attorney-General's Department. Family Relationship Counselling is jointly funded with the Department of Families, Community Services and Indigenous Affairs.

Financial Assistance Schemes

The Attorney-General's Department administers a number of schemes for the provision of financial assistance for legal and associated costs. These schemes exist to provide legal or financial assistance in cases where legal aid is not available from legal aid commissions and where the circumstances give rise to a special Commonwealth interest. People and

organisations can apply for assistance directly from the Australian Government under these schemes. In order to comply with obligations imposed by the *Privacy Act 1988* and to protect applicant information, it has been a long-standing practice, endorsed by successive Attorneys-General, to treat applications for financial assistance in confidence and not to disclose information in relation to individual applications

Criminology Research Council

A full list of grants provided for criminology research is in Attachment H.
