## Australian Federal Police

1 to 3. Please see table below

4 & 5. The kilometres travelled are captured in log books and only gathered centrally once each year in meeting FBT return requirements. Updates on kilometres and costs year to date for each Senate Estimates hearing is not practical.

Australian Federal Police			Operational Requirements	Total Operating Cost	Operating Cost Per Vehicle	Purchased and Fit Out Cost	Kilometres travelled in 2010-11	Kilometres Travelled Per Vehicle
<p><b>*For security /operational purposes the AFP does not identify details relating to vehicles specifically used for covert policing purposes. Therefore, the AFP is only providing advice on the following 364 vehicles. The AFP only purchased 1 domestic based vehicle in 2010-11. The costs allocated against each domestic based vehicle is the management costs and fuel. The AFP does not have the data for the majority of vehicles overseas in a way that would readily allow answers to be provided to these questions. To attempt to provide this level of detail would involve an unreasonable diversion of resources. However, we have provided location details.</b></p>	72	ACT	Forensic Services, Learning and Development, Close Personal Protection Training, Close Personal Protection, Technical Operations, Communications, People Strategies, Property Officer, Special Response and Training, Traffic Investigations Group, Traffic Operations, International Deployment Group	\$ 183,185.97	\$ 2,544.25	\$ 312,424.61	811,940	11,276
