Northam detention Centre
Protective Mark

Dear Sirs

We wish to reiterate the need to move the sewage treatment plant that you have proposed to be 200 metres from our home

The health risks to ourselves and anyone whose property is connected to the natural watercourse that you intend to place it next to are too high

The sewage plant that has been proposed is closer to our home than the proposed detainee housing, this in itself is insulting

It just re-enforces the feeling that the local residents are being treated with total contempt

regards

Catherine and John Edwards
