

### LTAWP projects 2010-11

2010-11	Description	Proponent	Funding \$
<b>Middle East and North Africa point of slaughter improvements</b>	This project builds on activities delivered under 2009–10 funding. This project aims to improve post-arrival animal welfare for cattle and sheep by upgrading abattoir infrastructure in Kuwait, Saudi Arabia and Qatar. Training programs for local staff on best-practice handling and slaughter techniques will also be provided.	Meat & Livestock Australia	665 000 (DAFF 332 500)
<b>Indonesian point of slaughter improvements</b>	This project builds on activities delivered under 2009–10 funding. This project aims to improve post-arrival animal welfare for cattle by upgrading and maintaining abattoir infrastructure in Indonesia. Training programs for local staff on best-practice handling and slaughter techniques for cattle will also be provided.	Meat & Livestock Australia	250 000 (DAFF 125 000)
<b>Jordan slaughterhouse improvements</b>	This project aims to improve post-arrival animal welfare for cattle and sheep by upgrading abattoir infrastructure in Jordan, together with training for local staff on best-practice handling and slaughter techniques.	G&B Stainless	140 000 (DAFF 70 000)
<b>Regional Animal Welfare Strategy in Asia, the Far East and Oceania</b>	This project supports OIE member countries in Asia, the Far East and Oceania to promote, adopt and implement OIE animal welfare standards.	DAFF	38 000 (DAFF 19 000)
<b>Total</b>			<b>1 093 000</b> (DAFF 546 500)

## LTAWP projects 2009-10

2009-10	Description	Proponent	Funding \$
<b>Indonesian point of slaughter improvements</b>	This project sought to improve animal welfare at the point of slaughter by funding the construction and maintenance of cattle restraining boxes, providing animal handlers with training in standard operating procedures, and conducting an independent assessment of the effectiveness of past projects delivered in South East Asia.	Meat & Livestock Australia	300 000 (DAFF 150 000)
<b>Middle East livestock slaughter and handling improvements</b>	This project sought to improve cattle and sheep handling practices and point of slaughter welfare outcomes through infrastructure improvements in Bahrain, Kuwait, Saudi Arabia and Qatar. It also provided animal handler training from ship discharge through to trucking, unloading and handling at feedlots and abattoirs.	Meat & Livestock Australia	590 000 (DAFF 295 000)
<b>Malaysian point of arrival and slaughter improvements for Australian goats</b>	This project sought to improve the welfare of goats in Malaysia through the design and installation of discharge ramps at the Kuala Lumpur International Airport. It also involved upgrading a slaughter facility and training staff in animal handling and slaughter techniques.	Meat & Livestock Australia	100 000 (DAFF 50 000)
<b>Total</b>			<b>990 000</b> (DAFF 495 000)
