

## **The Consulting Service**

My consultancy provides management assistance to the public sector on a personal basis. My aim is to provide cost effective assistance in the development, implementation and review of management solutions and strategic change for the betterment of all shareholders in a caring, trustworthy and honest manner.

I established my management consulting company in 1997 after 18 years in senior public sector management positions in the areas of finance, administration and as Chief Executive. I have extensive experience in creating a more customer focussed, results orientated and satisfying place of work. Throughout my career I have developed a sound reputation with local, state and federal government authorities, parliamentarians and the business community.

Gary Clarke, Managing Director, B.Bus., MLGMA CPD, Grad. Cert. LGM, JP.
