To Whom It May Concern

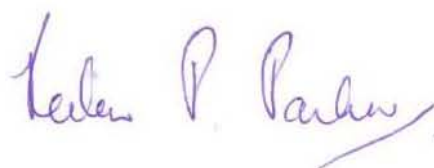

We wish to express our concerns regarding the recent recount of Electoral Votes for the Seat of McEwen and the subsequent disparities and possible fraudulent activities which have come to public attention.

We suggest that photographic identity of each voter should be produced at the time of voting and that electoral roles should be on line and electronically linked to each other and a central data base to eliminate people voting more than once, voting for other people and pretending to be a person other than themselves.

Yours sincerely

Laurie Parker
