

Date 13-5-05. Stop the security risk for Australia

Mr Bob Baldwin M.P.
Aviation Committee Chairman,
The Parliament House
Canberra.

JOINT COMMITTEE OF
23 JUN 2005
PUBLIC ACCOUNTS & AUDIT

Submission No: 17

Dear Hon Baldwin,
Sub: Review of Aviation Security
in Australia

My main concerns are Baggage Handling by the staff is not accurate and unprofessional. It is inappropriate to employ casual staff for Baggage Handling. Heard many stories from the News Papers that ex criminals like who has criminal record, such as Jail terms were employed by the Airports Authority. Passengers are at dangerous risk because of the careless handling of bags by the staff. Duty of care is not exercised by the Baggage Handling staff. Innocent passengers like Chappale Corby are jailed for somebody's mishandling. The Airport Authority must appoint highly skilled & efficient staff in these Airports, because of the risk involved - it's one of the top level services. Passport checking both outgoing & incoming Passengers must be 2 to 3 levels in case one level makes mistake the next level catch the culprit. False identity checks Airport Authority must apply latest technology like America & Japan to catch the fraudulent travellers in view of terrorism scares. Stop false passports & frauds.

Yours sincerely,
