

Submission No 40

Inquiry into Australia's Overseas Representation

SUPPLEMENTARY SUBMISSION

Organisation: Australian Electoral Commission

Joint Standing Committee on Foreign Affairs, Defence and Trade
Inquiry into Australia's Overseas Representation

PUBLIC HEARING, Friday 17 February 2012

ANSWERS TO QUESTIONS ON NOTICE

Department/Agency: Australian Electoral Commission
Topic: Postal votes issued overseas
Question reference: Hansard, Page 6, 17 February 2012

Number of pages: 15

Question:

Do you have any indication of how many postal votes are accessed from countries where we have no representation?

Answer:

In addition to the 63,054 pre-poll votes issued at overseas posts for the 2010 election, AEC postal voting records indicate that 17,548 postal vote certificates (PVCs) were sent to an overseas address from Australia or issued from an overseas post.

Details of the number of PVCs issued, by destination country and/or locality, are attached. There is a wide diversity of overseas postal address formats provided by electors to the AEC; consequently, in some cases the address has proven difficult to classify to a country. To assist the Committee, some grouping has occurred for those countries that received a large number of PVCs.

A small number of PVCs were issued by an overseas post to an address in Australia. Other PVCs, primarily destined for overseas ADF personnel, were sent to an address in Australia for secure despatch by the ADF. Those certificates show Australia as the country of postal address in the attachment.

For all postal votes issued:

- 11,242 were received back in Australia and admitted to the count;
- 106 were partially admitted (only the Senate vote was counted);
- 1,899 were rejected. The primary reasons for rejection were because the PVC was not properly signed and/or witnessed, or the vote was recorded after the close of polling; and
- 4,301 were not returned, or were returned too late to be included in the count.
