The Treaties Committee

Dear Sirs,

I would like to add my protest to the many, many, thinking, proud Australians against this so called International Court of Justice, or whatever it is called, interfering with our local Judiciary System.

Our Minister for Foreign Affairs and our Attorney General would have us rush in, without consulting the people and sign this treaty with the United Nations (The great "Talkfest" people). I believe we have the legal system and the constitution to deal with any contingency arising in Australia without any interference from ANY outside agency.

Yours faithfully,
J.E. Spraggon
