

**Australian Parliament  
Joint Standing Committee on Migration  
Submission No. 130**

Dear Sir Madam,

If we went to any Muslim nation would we be allowed to take our beliefs and laws with us. Would any Muslim nation accept us living our way of life in their country. eg. would us women be allowed to go to any nation and not wear a veil and not have all skin completely covered.

Would we be allowed to bring our laws with us and live by Aussie laws in their countries.

Would we be allowed to worship our God as we would wish in their country.

In England the Muslims had street marches proclaiming death to any one who didn't accept Allah as their God. How long before this will be happening in our beloved Australia.

I have good Muslim friends. This is Australia and I want it to remain Australia with the same values I grew up with, and not have Muslim laws allowed in my country. They can go back to their countries if they do not like our laws. That is why their parents left their countries because we had freedom.

Please don't let this change. Australia is the best place in the world at present.

I trust it will remain that way.
