

With reference to:

SENATOR THE HON PETER COOK, Senator for Western Australia - Australian Labor Party, 10 February 2005, **Cancer Inquiry**.

Dear Senator Cook,

We support the Gawler Foundation financially even though we have not had the misfortune to have family members with cancer. We have however been able to support friends and relatives who have suffered cancer and comfort and assistance in combining medical treatment with the principles that the Gawler Foundation provides has been of immeasurable benefit. We therefore would like to add our voice to those who have already support this worthwhile foundation.

Yours sincerely,

June & Alastair Henderson
