

It seems to me that the government being involved in this is to use a blunt tool at best.

- 1) You can't get blood from a stone
- 2) You can lead a horse to water.....

I know from my own experience no amount of legislation will ever make me do what I would've done voluntarily if I were to do it at all !!

Having already been exposed to your Family Courts I'm telling all men that I talk to not to have children in this country for the CSA will kick down your door and steals your possessions should you miss a payment to a woman that commits adultery and steals your children. That's what I know to be true.

As for your Legislation-don't bother-it's of no value to begin with.

Yours Very Truly

As for the legislation---burn it.!!!
