

I would like to say that I am against any Medicare funding of abortions and especially late term abortions. It is totally unjust that my tax money is being used to kill the youngest members of our society. There are too many abortions in Australia and we need to do all that we can to bring this number down. If mothers were actually more informed on what happens in an abortion, and the consequences, and were actually supported in their time of stress and need, I believe there would be a reduction in the huge number of abortions in Australia. There should be a large increase in the amount of funding for objective counselling for mothers, which is not run by the abortion industry but by independent organisations.
