

SENATORS CAMPBELL, NASH, COONAN, FAULKNER
FIERRAVANTI, WELLS, FORESTAN, HEFFERAN
HUTCHINS, WETTEL, MARDONALD, PAYNE AND STEPHEN

Dear Senators

I have read and heard on the news of the forthcoming Senate ^{committee} Inquiry into the recommendations of The LOCKHART Inquiry:

These recommendations appear to me to renege the 2005 UN Resolution calling for the prohibition of all forms of human cloning which I understand that we are a signatory to.

We of course need science to improve our lifestyle and health but this must be done applying ethical standards. These recommendations as I have stated above appear to ignore

- 1) Our agreement to the 2005 UN Resolution
- 2) Ethical reasoning and standards

Under the circumstances ~~of~~ my wife and I are looking to you to ensure your decision in the matter is based on the above

Yours sincerely,
Jim Treveny Jd
