

Dear Committee Secretary,

The Bill which would force Pregnancy Counselling Centres to provide referrals for abortions in their material is unjust.

Anti-life activists refer to pro-life counsellors as "false providers", whereas the actual "false providers" are abortionists who kill unborn children.

Pregnancy Counselling Centres have for many years worked with women to support them in facing difficulties because of pregnancy. Families are included in this support network.

In the public interest please ensure that this valuable work done by Pregnancy Support Centres can continue  
Yours sincerely  
C. MARK KNOBZ
