Subject: Material for Senate Committee RTD Inquiry
Dear Mr Humphrey /Ms Zappe

During the ADF presentation to the Senate Inquiry into RTDs last Wednesday, Ms Rosemary Maclean and I promised to provide additional material. In order to do that I have attached the following materials:

(1) A reference for the Australian Bureau of Statistics paper reporting wholesale sales data from i.e. ref no. 4307.0.55.001 - Apparent Consumption of Alcohol, Australia, 2006-07 (Reissue)

<http://www.abs.gov.au/AUSSTATS/abs@.nsf/mf/4307.0.55.001/>

(2) An ADF statement on the importance of collecting wholesale sales data.

(3) Two media articles reporting comments on RTDs by Mr Baxter (see above).

(4) Advertising/promotional images of certain RTDs published in various editions of National Liquor News (see above).

(5) In addition I have provided an on-line link to the Livingston paper (on Victorian trends in risky consumption) of which we provided a paper copy at the hearing:

I trust the Committee will find this material of interest.
