

Submission on the Food Standards Amendment (Truth in Labelling – Palm Oil) Bill 2009

To Whom It May Concern,

I support the mandatory labeling of palm oil because as a consumer I have the right to be informed of exactly what is in the foods I choose to buy for my family and myself. I have the right to make informed choices and one choice I would definitely make is not to buy products with palm oil in them.

The devastation that is done to the natural habitat of orangutans and to the orangutans themselves is appalling and I wish to have nothing to do with it.

I would hope that as people with a conscience we could provide a more sustainable way to produce palm oil that does not involve the degradation of forests and extinction of orangutans.

Regards,
