

Surely we as Australians have the right to know what we are eating and not some “food/chemical”
that some number

That a manufacturer has the ability to hide behind

Because there is no law to inform the public as to what they are trying to sell us

ARE THEY TRYING TO HIDE SOMETHING?

Please pass the bill that will oblige manufacturers to name ingredients (so that I don't have to look it
up in encyclopedia)

So that I know what it is I'm feeding my family

Thankyou

Kind Regards

Ron Hassan
