

I am writing to voice my concern about the use of Palm Oil in Consumer Goods, particularly because it is causing destruction of precious rainforest habitat, and the decimation of species such as the Orangutan. If I were able to know the products that contained Palm Oil I could avoid the purchase of such items.

I would therefore like to support the (Truth in Labelling - Palm Oil) Bill 2009.

It upsets me greatly that I am unwittingly supporting this destructive industry.
yours sincerely,

Amanda Crombie
