

To Whom it may Concern

I wish to put in a submission regarding the bill "Food Standards Amendment (Truth in Labelling - Palm Oil) Bill 2009 stating I would like to see the mandatory labelling of palm oil. Without this labelling, I feel I am being duped by manufacturers as to the true ingredients in products I purchase. I also wish to have the choice of being able to chose my products based on whether they are conservation based or not.

Kind regards,

Phillipa Will
