

To Whom It May Concern,

The reason for my submission to you is purely personal.

I support the Food Standards Amendment (Truth in Labelling - Palm Oil) Bill 2009 with the mandatory labelling of palm oil because I believe I have the right to know what is in the food I eat and the products I use. I choose both food and products based on ingredients.

I was horrified to see what this palm oil greed is doing to the habitats of the Orang-utans and Tigers. The people de-treeing the forests have no compassion for the animals at all.

Kind Regards,  
Robyn Knorr
