

I'd like to submit my support for the mandatory labelling of palm oil as an ingredient in food. My reason for this is that , as a consumer, i want to be aware of the specific ingredients so i can make an informed choice as to whether i am supporting the deforestation that occurs when this product is produced...or not.

thanks,

I don't think I need to appear before the senate committee hearing as I presume you will hear many many voices like mine.
