

To whom should be concerned.

I wish to have the choice when it comes to buying products.

I want to know what ingredients are in food, cosmetics and chemicals.

I do not wish to deplete Asian rainforest, elephants, orang-utans and tigers
plus countless other organisms.

I want to choose not to buy products containing palm oil.

Please accept my submission towards the Food Standards Amendment (Truth in
Labelling - Palm Oil) Bill 2009

Brier Gough
