

To whom it may concern,
I would like to express my vote for the mandatory labelling of palm oil in all products sold in Australia, I was fortunate to visit Sumatra last year & see the devastating effects of the palm oil plantations & the reduction in the orang-utan habitat. Once palm oil is labelled, consumers can actually drive a market for proper certified, sustainable palm oil because they can demand it of the manufacturers. This is an issue that is basically in our own back yard & we all need to be responsible & balance the ethical, moral & financial implications.

best regards

Jennifer
