

Dear Sir/Madam,

Hi, I'm Sheila . I am supporting the Truth in Labelling - Palm Oil Bill 2009 for mandated labeling of Palm Oil because I can't stand seeing people cutting down Orang-utan's habitats because it will mean that they will become extinct.

Without animals the world really wouldn't be as good because animals are a big part of the world.

They look after the green stuff. They are part of the natural cycle that helps us breathe and live.

Yours sincerely

Sheila Buckley
