

Dear Sir

We am writing to express our support for the Food Standards Amendment (Truth in Labelling – Palm Oil) Bill 2009.

We believe it is appalling that the labelling of Palm Oil in Australia is not clearly labelled, there by allowing Australians to choose if they wish to support the palm oil industry or not. To have palm oil, or any other oil, labelled under such a vague system needs to be addressed and I hope this Bill will go some way into fixing this glaringly obvious error.

We support the "Don't Palm Us Off" campaign in their efforts to clearly label palm oil in Australia and also with their efforts to save the Orang-utan and it's environment.

With regards,

*Robert & Kirsten Muir*
