

This is a passionate plea from an ordinary citizen in support of the Private Members Bill for mandatory labeling of palm oil on all products sold in Australia.

I am tired of the secrecy and the deceit surrounding the use of palm oil. It is my right to know what is in Australian products so that I can make individual informed choices about whether or not I purchase these products.

I will no longer accept misleading labeling and lack of disclosure.

Please do not palm us off as “mere greenies”; we are deeply concerned about our planet, its ongoing sustainability and the survival of all species, including man.

Kind regards

Anita Panayiotou
