

To whom this may concern,

I would like to give my opinion on the Food Standards Amendment (Truth in Labelling – Palm Oil) Bill 2009. I feel consumers should have the right to choose when to buy palm oil products or not. Many Australian's would want to help out the orang-utan population by consuming foods that are made from environmentally sustainable palm oil and not destroying habitat as it is made. Personally if I knew what foods contained the bad palm oils I would avoid them I favour for the products containing the good palm oils.

Please take into consideration what I have said.
