

I wish to share my view on the topic of Truth in Labelling-Palm Oil bill 2009

I support the mandatory labelling of palm oil, this is a personal issue with me as I do not wish to use products that threaten to extinguish a species or even a product that destroys natural habitats and forests, but I am unable to switch to brands that are more environmentally friendly as I don't realise the brand I currently use is doing just that and this angers and saddens me greatly.

Thankyou for your time, I hope the amendment is passed.
