

Food Standards Amendment (Truth in Labeling – Palm Oil) Bill 2009

Dear Sir / Madam

As an animal lover and environmentally conscious consumer I demand to be made aware of what products go into the food I eat. I am sadend about the massive destruction cultivation of Palm Oil has in Indonesia and Malaysia.

It is a product which I avoid and believe Palm Oil should be labeled as Palm Oil and not by any other name this is clearly to misleading.

Regards

Magosia Waskowski
