

I have read the Food Standards Amendment and I want palm oil labeled clearly on every product that contains it. To produce palm oil orangutans and tigers get killed and their habitat gets cut down. I don't want to be a part of the horrible things that are happening to these amazing creatures except for trying to help. I don't want to consume anything with palm oil in it but it's a hard thing to do when it's not even labeled correctly. Please label the palm oil because we have a right to choose. Thank You. Stephanie Oberstar.
