

I would like to indicate my support for the mandatory labelling of palm oil as proposed under the *Truth in Labelling – Palm Oil Bill 2009*.

I support this bill as I believe that people should not destroy the habitat of endangered species in order to obtain a food product, especially not when there are alternative means available to obtain the food product.

I would like to see products that include palm oil clearly labeled. I would like to see a similar logo to that used in dolphin friendly tuna, so that I am able to make a choice when purchasing products that use palm oil. I would then be able to support the farmers that use sustainable farming to produce palm oil.

Thankyou

Carmel Tritscher
