

Dear Senate Committee,

Re: Food Standards

Amendment (Truth in Labelling – Palm Oil) Bill 2009

I 100% support the labeling of Palm Oil on all foods on Australian shopping shelves. It is important that the public have the direct purchasing decision of such products and engage manufactures by making them accountable for the ingredients used. They must understand that consumers today are more knowledgible than ever and will not put up with actions that have long term consequences on our environment and overall health.

I have no interests pertaining to this matter, other than it is the right thing to do. My children want to see the world as I see it today - including forests with Orangutans. With little actions come large outcomes. This is but an example of what little action you, and we, can influence today that makes complete sense and benefits all! Can you please ensure you do the right thing and make this labeling mandatory.

My name is Hayden Maynard and I am a consumer that wants change. I can be reached if you require any further updates on the numbers below/

With Regards,

Hayden Maynard
