

Dear Sir or Madam

I am writing to you to give support to the above bill, Food Standards Amendment (Truth in Labelling – Palm Oil) Bill 2009.

Even though I'm only eight I still want to help save the orang-utans so I can see them and in the future maybe even my children and my children's children can see them also.

Please label food with the words PALM OIL so my family and friends will buy products without palm oil in it so we can help save the forests of the endangered orang-utans so they may stay in their own natural environment and live until they are old.

I really, really, really want them to live!

Thank you,

Harrison Ritchie
