

To Whom It May Concern:

I would like to add my support for the 'Food Standards Amendment (Truth in Labelling – Palm Oil) Bill 2009'. I support the compulsory labelling of palm oil on products. I do not support the large scale removal of tropical forests (including orang utan habitat) for oil palm plantations. I support labelling so that I can make informed decisions about which products I buy, and hopefully be a part of a consumer driven demand for products that do not involve the destruction of forests.

Yours sincerely,

Sue Jacobs
