

I support the bill for Food Standards Amendment (Truth in Labelling – Palm Oil) Bill 2009

- Why you support the mandatory labeling of palm oil:

Have been to Borneo and seen the plight of orang-utans 1st hand - not so long ago they could swing from one side of the island to the other - now it's only 10% (approx) of that. WE need the choice to know if we're damaging their habitat further.
