

To whom it may concern, I am quite surprised to here that a polly wanted to get on board with this Campaign, It is a great start , there should be more Pollies getting on board. I would like the choice of having (palm oil) products labelled, so we can actually do something about habitat and forest destuction.....We should ALL remember it is not about US, it,s aboutORANGS, GORILLAS, ELEPHANTS and OTHER affected species of WILDLIFE.....Should be more support from pollies and big businesses, BIG Business should make policy,s that conservation of areas where animal species live MANDATORY.....
FAULKNER.....

YOURS SINCERLY WILLIAM J.
