

Dear Sir/ Madam

Re: Food Standards Amendment (Truth in Labelling - Palm Oil) Bill 2009

I wish to support this bill and the mandatory labelling of palm oil on all consumer items sold in Australia. I have a personal interest and feel a responsibility to do everything I can to conserve the natural habitats of orangutans. I wish to be able to choose not to buy products containing palm oil and I can only do this if there is clear labelling of products containing palm oil.

Yours sincerely
Sharon Hammad
