

To Whom It May Concern
Re: (Truth in Labelling - Palm Oil) Bill 2009

I am writing to support the Truth in Labelling - Palm Oil Bill 2009. As a consumer it concerns me greatly that I am unable to choose to avoid purchasing products using Palm Oil. I am horrified that I am unwittingly supporting an industry that causes the destruction of rainforest habitat, and the species that live within it. I wish to voice my strongest support of this bill which will allow the consumer to make their choice when it comes to using products containing Palm Oil.

Thank you,

Anton Mann
