

I am writing to you in regards to the Food Standards Amendment Truth in Labelling - Palm Oil bill 2009

I believe Palm Oil should be labelled so that consumers can make an informed decision on their purchases, I would not buy a product I knew had palm oil in it, I am sure it is for this very reason manufacturers do not label this ingredient. We need to protect the habitat of Orang-utans and Tigers.

Please make the move to make the labelling of Palm Oil mandatory.

Kind Regards,

Kathryn Feldmaier
