

Food Standards Amendment (Truth in Labelling – Palm Oil) Bill 2009

I, Michael Saunders would like to demonstrate my support for this bill.

As a father, I do not want my son to grow up in a world where no responsibility is taken for the destruction of animal habitats causing the foreseeable and preventable extinction of species such as the orang-utans. 90% of orang-utan habitat has been destroyed, with the most common cause of deforestation in Indonesia being related to the development of palm oil. I, as a consumer demand the ability to make informed choices about products that contain palm oil.

Michael Saunders
