

To whom it may concern,

I am writing in support of the Food Standards Amendment (Truth in Labelling – Palm Oil) Bill 2009

I am a conscientious consumer, and would like the right to know which products contain palm oil, so that I might make an informed decision on whether or not to buy them.

I believe it is the governments ethical responsibility to pass this bill and enforce the labelling of any product which contains palm oil, and, more importantly, contains palm oil that is not derived from RSPO certified sources.

Thanks for your time,

Ryan Davidson
