

To Whom It Concerns , I am writing to you to express my absolute disgust to the proposed laws affecting Homebirth and homebirth midwives. I find it appalling that the fundamental rights for women to birth where they choose could be compromised in any way, I had two wonderful homebirths and I believe that this choice should be any woman's right .I believe that the changes to these Laws will put the safety of many in jeopardy due to a lack of choice and the lack of very skilled midwives prepared to risk litigation ,may create a situation where women try to do it without the appropriate support. The government should be supporting women and midwives to birth at home as it would also reduce the horrific rates of intervention experienced in many Australian hospitals.

Yours Sincerely Kyles Woodbury
