

I am very concerned about getting homebirths illegal in Australia!

I had a wonderful homebirth with my first son and we would like to give birth to our second at home as well. But if there I don't have the choice of having a homebirth after 2010 I have to leave Australia together with my family. This would be very sad!

So please don't change the right of all women to have the choice of a homebirth!

The world needs it!!!

Best regards,
Tanja Otto
