Dear Senator Moore

Re: Inquiry into Health Legislation Amendment (Midwives and Nurse Practitioners) Bill 2009 and two related Bills

I write to express my concern about the above bills. I understand that these bills will enable Medicare funding, access to the Pharmaceutical Benefits Scheme and professional indemnity premium support for midwives providing care for women to give birth in hospital.

Medicare funding for midwifery care is overdue. It is not acceptable to exclude homebirth from this funding and indemnity arrangement. By doing this Australia is out of step with nations such as the United Kingdom, Canada, The Netherlands and New Zealand. These nations support the rights of women to choose homebirth and fund a registered midwife through their national health scheme. In New Zealand and the U.K women have a legislative right to choose homebirth.

The intersection of this legislation with the national registration and accreditation of health professionals will prevent homebirth midwives from registering. I believe this to be an unintended consequence and ask that you take steps to include homebirth within the Health Legislation Amendment (Midwives and Nurse Practitioners) and related Bills.

I support a system where all consumers are treated equally, with the same access to funding and the same insurance protection.

I believe the consequences of such legislation will lead to undercover practices and more dangerous conditions for births, as homebirth is a core right for women, and as we know, there is no arguing with a pregnant woman!

Yours sincerely,

Amelia Swan
