

PLEASE, PLEASE, PLEASE DO NOT MAKE HOMEBIRTH ILLEGAL!!!

I have wanted to be an independent Midwife my entire life, and now that I am finally achieving that dream, you are taking it away. There is nothing to suggest that giving birth at home is more dangerous - on the contrary, women who give birth in hospital are at risk of enduring a number of life-changing and life-threatening interventions. If nothing else, think of how much money homebirth could save the government.

Please, I beg you, as a midwife and a young mother, PLEASE do not take this choice away from women!!! The decision of where to give birth should be made by the woman - not by the government!

Regards,

Kylie Redway
