

I have birthed 3 children at home...the first 2 births not so straight forward but both beautiful uncomplicated births. If I had not had the opportunity to birth them in my own space unhindered or been interrupted they would have been for certain intervened births with all sorts of complications. I am thankful on a daily basis to have been able to have opportunity and freedom to birth my children safely in my time and my home. No family could come from a better beginning. As my Dad who is new to homebirth says so simply, ' How can something natural be made illegal?' - Grandfather of 5 grandchildren born at home!
